DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1 and 11-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, the Applicants recite the following limitation "providing one or more polymers which can be cross-linked intramolecularly or intermolecularly or intra- and inter molecularly by covalent or non-covalent bonding." What is the scope of this limitation?

3. Also, in claims 1, the Applicants use the term "preferred." Description of the examples or preferences is properly set forth in the specification rather than the claims. If stated in the claims examples and preferences lead to confusion over the intended scope of a claim. Therefore, each occurrence of "preferred" should be deleted.

Art Unit: 1713

4. Claims 11-14 recite "preparable." This is indefinite.

Please replace with --prepared.--

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

6. The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

7. Claims 1-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Kiessling et al., U.S. Patent No. 6,271,315 (hereinafter "Kiessling"). See Kiessling, claim 28.
